

# 3500 FeatherWeight™ Economy Seat

*slim profile with conventional recline*

**TIMCO**  
aerosystems

## CERTIFICATION OPTIONS

TSO-C127a (16G standard)

Full HIC Compliance to CFR 25.562

Qualification to CFR 121, Amendment 315

Compliant to Special Condition and CRI Requirements

Optional Smoke & Toxicity to ABD00031

Optional Smoke & Toxicity to D6-51377

*Certification to EASA and other agency requirements available.*

## Reduced Cost of Ownership

- Standard coverings
- No back cushions
- Standard pivot tray table
- Fewer parts
- Plastic shrouds and end bays

**Significant weight savings: 33.9 kg (74.7 lbs) per standard triple.**  
*includes bottom cushion, fabric, tray table, seat belt, IFE provisions and life vest container*

## Enhanced Passenger Comfort

- Recommended for long haul with 30" to 34" minimum pitch
- Conforming, flexible back and bottom diaphragms providing "passive" lumbar support
- Armrest with sliding recline control buttons / conventional push buttons
- More leg room than most economy seat models
- Enlarged under-seat bag stowage space
- Wider egress due to shorter armrests and cushion-less design
- 10" rear-mounted food trays with "belly room" curvature
- Padded dress covers

**Conventional recline and comfort in a state-of-the-art, slender profile.**

## Innovative Product Design

- Bottom seat pan with integrated passive waterfall feature
- Rigid back recline mechanism
- Machined aluminum primary structural components
- Centrally-mounted hydrolock enhances strength and stability of back
- Patented quick-install front anti-rattle track fittings
- Anodized, high strength baggage bars
- Injection-molded end bay bumpers and rub strips
- Durable elastomer snap-on arm cap covers

**Fewer parts and lighter materials.**

## 3500 FeatherWeight™ Economy Seat
